 # 210 Name: **Sheenjok River** Cause: **Lightning** Admin: **YFR**  
 Narrative: The Western perimeter extended beyond the established control line under the influence of red flag conditions. The Northeast corner remains a concern as pockets of spruce within river convolutions can carry firebrands across river. Aircraft operations via CL-215 support and paracargo were not possible due to poor conditions at their home base. Spike camp and the crew at the southwestern corner moved downriver to provide structure protection and initiate indirect line. 251 personnel are currently staffing this fire.
